Education

Kakinada Institute of Engineering and Technology

Bachelor of Technology in AIML

Sep. 2023 – May 2026

Korangi, Andra Pradesh

Kakinada Institute of Engineering and Technology

Diploma of Technology in CME

Sep. 2020 – May 2023

Korangi, Andra Pradesh

Career Objective

- A motivated and dedicated professional with good knowledge of Core Java and Object-Oriented Programming concepts. Possessing strong problem-solving skills and a keen interest in learning new technologies. Seeking a suitable position in a reputable organization to apply my skills, grow professionally, and contribute to the success of the team.

Coursework

- Core Java
- MySQL Fundamentals
- Web Technology
- Database Management
- SoftSkills
- Java Software Developer

Projects

Online Banking Services (Java GUI Application) |

- Designed and developed a GUI-based Online Banking Services application using Core Java.
- Implemented key functionalities including user authentication, account creation, balance inquiry, deposit and withdrawal, and transaction processing.
- Applied Object-Oriented Programming (OOP) principles such as abstraction, inheritance, encapsulation, and polymorphism to ensure modular and maintainable code.
- Improved understanding of Java application flow, event handling, and problem-solving techniques.

Netflix Clone | *Java, Eclipse, HTML, CSS*

- Developed a Netflix clone web application that replicates the basic interface and design of the Netflix platform. The project includes a responsive homepage, movie sections, and a user-friendly UI similar to the original Netflix layout.
- Implemented responsive UI design with movie sections and navigation features.
- Designed an interface similar to the Netflix platform and accessed from the MySQL and databases.

Technical Skills

Languages: Core Java, HTML/CSS, Data Structures Algorithms (DSA), JDBC, Servlets / JSP, MySQL

Developer Tools: VS Code, GitHub, Git, Eclipse

SoftSkills: Communication, Problem Solving, Quick Learner

Leadership / Extracurricular

Project Leader

Leader

NOV 2025 – Present

KIET GROUPS

- Developed a system to detect fake currency notes using computer vision techniques..
- Managed executive board of 5 members and ran weekly meetings to oversee progress in essential parts of the Project.
- Successfully collaborated with a team to complete the final year project.
